Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

	Application No.	Applicant(s)				
•						
Office Action Summany	10/559,810	UEDA ET AL.				
Office Action Summary	Examiner	Art Unit				
	Henry S. Hu	1796				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
Status						
1) Responsive to communication(s) filed on <u>Pre-Amendment of May 12, 2006</u> .						
, <u> </u>						
	3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is					
closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.						
Disposition of Claims						
4)⊠ Claim(s) <u>1-8</u> is/are pending in the application.						
4a) Of the above claim(s) is/are withdrawn from consideration.						
5) Claim(s) is/are allowed.						
6) Claim(s) is/are rejected.						
7) Claim(s) is/are objected to.						
8) Claim(s) <u>1-8</u> are subject to restriction and/or election requirement.						
Application Papers						
9)☐ The specification is objected to by the Examiner.						
10) ☐ The drawing(s) filed on is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.						
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).						
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).						
11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.						
Priority under 35 U.S.C. § 119						
12)⊠ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).						
a)⊠ All b)□ Some * c)□ None of:						
1.⊠ Certified copies of the priority documents have been received.						
2. Certified copies of the priority documents have been received in Application No						
3. Copies of the certified copies of the priority documents have been received in this National Stage						
application from the International Bureau (PCT Rule 17.2(a)).						
* See the attached detailed Office action for a list of the certified copies not received.						
Attachment(s)						
1) Notice of References Cited (PTO-892)	4) Interview Summar Paper No(s)/Mail [
3) Notice of Information Disclosure Statement(s) (PTO/SB/08) 5) Notice of Informal Patent Application						
Paper No(s)/Mail Date 3 pages. 6) Other:						

Application/Control Number: 10/559,810

Art Unit: 1796

1. This Office Action is in response to **Pre-Amendment** and **three IDS'** (1 page each) filed so far. This Application **10/559,810** is from 371/JP04/08243 with a Japanese priority at June 9, 2003. **Claims 1-8 are now pending** with only **one** independent claim (Claim 1). An action follows.

DETAILED ACTION

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1, this is based on the preliminary search done by the examiner as well as by examining the references cited in international search report and IDS filed by Applicants. It is noted that all four independent claims are marked with an underline and are combined with its dependent claims.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted as following:

I. Claims 1-5, drawn to <u>a fluorine-containing polymer</u> for treating masonry. The polymer is comprising <u>two</u> monomers including: (1) a fluorine-containing monomer having a

Application/Control Number: 10/559,810

Art Unit: 1796

specific chemical formula (I): Rf-Y-O-C(=O)-CX=CH₂, and (2) a co-monomer having a **functional group reactive with active hydrogen**; classified in class 526, subclass 242.

- II. Claim 6, drawn to <u>a composition</u> for treating masonry. The composition is comprising <u>two</u> components including: (A) a fluorine-containing polymer of Group I, and (B) an organic solvent; classified in class 524, subclass 500.
- III. Claims 7 and 8, drawn to <u>a method of producing a treated masonry</u>. The method is comprising <u>two</u> steps including: (A) applying a composition of Group II to a surface of a masonry, and then (B) removing the solvent; classified in class 526, subclass 245.
- 3. Where the group of inventions is claimed in one and the same international application, the requirement for unity of invention referred to in Rule 13.1 shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" shall mean those technical features that define a contribution which each of the claimed inventions considered as a whole, makes over the prior art. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, although they share the special technical feature, this special technical feature does not define a contribution over the prior art for the following reasons:

Application/Control Number: 10/559,810

in Control Hambon, 10,000,

Art Unit: 1796

- 4. In view of international search report for <u>PCT/JP04/08243</u> filed on December 8, 2005 by Applicants, Examiner's own prior art search as well as the references or articles cited in three <u>IDS'</u> filed so far by Applicants, Claims 1-8 is either obvious or anticipated by following:

 Delescluse (US 4,366,300), Schmidt et al. (US 4,592,930) and Linert et al. (WO 97/00230), each individually or in combination. In summary, these three groups have no common features in the preparation as well as its application since they are structurally different. The scope of the claims, i.e., the metes and boundaries are distinct. Accordingly, the special technical feature linking the inventions, the "<u>hydrogen reactive fluoropolymer</u>" and its composition as well as its process of using from Group I, Group II and Group III does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore the restriction is appropriate.
- With respect to the fact that "both groups are <u>structurally different</u> each other", Group I was drawn to <u>a hydrogen reactive fluoropolymer</u>, Group II was drawn to <u>a composition</u>, while Group III was drawn to <u>the process of using such a composition of Group II</u>. The fluoropolymer and its composition and the process of using are unique and thereby not interchangeable.
- 6. Because these inventions are distinct for the reasons given above shown as different subject matters and the search required for each group is not required for other groups have

Page 5

Application/Control Number: 10/559,810

Art Unit: 1796

acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

- 7. It is noted that one phone call was made to Abraham J. Rosner (registration # 33,276, tel: 202 293-7060) on August 13, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Art Unit: 1796

10. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Dr. Henry S. Hu whose telephone number is (571) 272-1103. The examiner can be reached on Monday through Friday from 9:00 AM -5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan, can be reached on (571) 272-1119. The fax number for the organization where this application or proceeding is assigned is (571) 273-8300 for all regular Information regarding the status of an application may be obtained from the communications. Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (tollfree).
